

Flovent[®] HFA[®] (fluticasone propionate) – First-time authorized brand alternative

- On May 24, 2022, Prasco launched an authorized brand alternative of GSK's [Flovent HFA \(fluticasone propionate\)](#) inhalation aerosol.
- Flovent HFA is approved for the maintenance treatment of asthma as prophylactic therapy in adult and pediatric patients aged 4 years and older.
- Inhaled fluticasone propionate is also available as brand inhalation powder ([Flovent Diskus[®]](#)) and another brand inhalation powder ([ArmonAir[®] DigiHaler[™]](#)). Both of these carry the same indication as Flovent HFA except ArmonAir DigiHaler is only indicated in 12 years and older.
- In addition, inhaled fluticasone propionate is available in combination with salmeterol as a generic and brand inhalation powder ([Advair[®] Diskus](#)), generic and brand powder aerosol ([AirDuo[®] RespiClick[®]](#)), and brand powder aerosol ([AirDuo DigiHaler[®]](#)). These are indicated for the treatment of asthma: Advair Diskus in 4 years and older; AirDuo RespiClick and AirDuo DigiHaler in 12 years and older.
