

Firvanq[®] Kit (vancomycin) – First-time authorized brand alternative

- On March 29, 2023, Wilshire launched an authorized brand alternative of Azurity's [Firvanq Kit \(vancomycin\)](#) oral solution.
- Firvanq Kit is approved for adults and pediatric patients less than 18 years of age for the treatment of *Clostridium difficile*--associated diarrhea and for the treatment of enterocolitis caused by *Staphylococcus aureus* (including methicillin -resistant strains).
- Vancomycin is also available generically as a [capsule](#), [oral solution](#) and [intravenous injection](#).
 - The capsule and oral solution carry the same indications as Firvanq Kit.
 - The intravenous injection is indicated for the treatment of serious or severe infections caused by susceptible strains of methicillin-resistant (β -lactam-resistant) staphylococci.
 - The parenteral form of vancomycin may be administered orally for the same indications as Firvanq Kit.
