

Norvir® (ritonavir) – First-time generic

- On March 13, 2018, West-Ward launched an [AB-rated](#) generic version of AbbVie's [Norvir \(ritonavir\)](#) 100 mg tablet.
- Norvir is approved for the treatment of human immunodeficiency virus (HIV)-1 infection in combination with other antiretroviral agents.
- Brand Norvir is also available as an oral solution (80 mg/mL), an oral powder (100 mg/packet), and an [oral capsule \(100 mg\)](#).
 - The oral solution and capsule carry the same indication as the Norvir tablet.
 - The oral powder is approved to treat pediatric patients with HIV-1 infection in combination with other antiretroviral agents.
- Norvir carries a boxed warning for drug-drug interactions leading to potentially serious and/or life threatening reactions.
